PREFACE.

ANOTHER notable day in the year has arrived, "Directory day," the anniversary which introduces our annual statement and the book to our subscribers and the public, in which we have of late years had the pleasure of reminding them of the great progress and improvements made by our city in its facilities for business, and for the health and recreation of its inhabitants; matters to which we shall only refer, as they are from day to day so ably brought to the notice of its residents by the local daily press.

We proceed at once to such facts as are more immediately connected with our work.

For years we have had occasion to refer to the desirability of newly numbering the houses, and enforcing some plan to have the new numbers put up and the old ones removed.

The plan adopted by the city authorities we consider a good one, and the new numbers and names of streets have almost universally been accepted by the people. The old numbers and names should now be removed without further delay, for if they are retained the confusion will still continue.

We have adopted the new numbers throughout the work, and in no case, to our knowledge, have we given the old ones.

During the past few years we have witnessed many great improvements in Brooklyn, but we consider this work of "new numbers" second to none in rendering facilities for business purposes and for the general convenience of all who live in, and the strangers who visit our city.

Attention is called to our new Street Directory, which has been compiled from the Official Records adopted by the Common Council, and which shows the corner numbers throughout the entire length of every street and avenue, thus enabling any one to ascertain the locality of any number in the city. For the convenience of those who wish the Street Directory separate, we have issued an edition in pocket form, which also gives the Railroad routes and other valuable local information.

The importance of statistics in a work of this kind cannot be over-estimated; we therefore extract the following statement from our Preface of last year, adding thereto the result of this year's canvass.

The Directory of 1840 was a small 12mo of only 136 pages, and contained 6,392 names. The one for 1850 contained 16,215. That for 1860 contained 54,395 names, while the present edition contains **94,304**, which is an increase of **8,768** names over last year.

The greatest increase of our population is in its suburbs, where the expense of canvassing is greatest, and the remuneration smallest—which fact, and the fact that since the price of the work has been Four Dollars it has increased over **18,000 names**, and also the consequent revision of our Street Directory rendering it entirely new, have made it necessary to advance the price of the work to \$4.50 per copy.

Our advertising patrons have not forgotten us—we do not forget them, and take leave to thank them for their favors.

UNION SAFE WORKS, { See Advertisement on back of Map.

67, 69, 71 & 73 N. OXFORD STREET,

FIRE AND BURGLAR-PROOF SAFES.

“ ABSOLUTE SECURITY THE BEST ECONOMY.”

STEAM

FIRE-PROOF

SAFES

SANBORN'S PATENT.

The remarkable fire-proof quality of this Safe is secured by placing water in copper vessels between the inner wall of the Safe and the book-case, so that when exposed to fire, steam is generated, carrying off the heat, and protecting the contents of the Safe for any desirable length of time.

Its superiority has been fully demonstrated, having been subjected to severe practical tests with the Safes of all other prominent makers, and always with complete success, preserving its papers while the contents of its competitors were destroyed.

In use this is the driest Safe ever made, as the water is hermetically sealed from contact with the air, completely preventing evaporation.

A practical man needs but to Examine it to be Convinced
of its **SUPERIORITY.**

**WELDED, STEEL AND IRON BANK VAULTS, BUR-
GLAR-PROOF SAFES, AND HOUSE SAFES.**

ALL WITH THE STEAM IMPROVEMENT.

The Steam Protection applied to Old Safes, or to Banks and Office Vaults.

FINE GOLD AND SILVER

WATCHES

A SPECIALTY.

Jewelry of 18 Karat Gold

OF SPECIALLY TASTEFUL DESIGNS.

SOLID STERLING SILVER WARE

OF NEW PATTERNS.

Our Articles are of the Best Quality and we sell at the Lowest Price, quality considered.

LIST OF WATCHES,

In Solid Gold or Coin Silver Cases only.

Waltham Watches,

Gents' Size, from.....18 to 210 Dollars
These Watches are all the same size, are good Time Keepers, are strong and substantial, are furnished with dust-proof Cap, Fogg's Patent Pinion, and sprung over Regulator, and are Warranted to us by the Company.

3-4 Plate and Stem Winding Watches.
These Watches are smaller in size than above, have all the improvements, and are Adjusted to heat and cold.

Ladies' Size, from.....48 to 120 Dollars
National Watch Co's Watches,
ELGIN, ILL.

Gents' Size, from.....25 to 125 Dollars
The above Watches are furnished with Burt's Patent Pinion, which prevents damage to the Train in case of breakage of the Main Spring.

The Hair-Springs are of tempered Steel, and are so attached by Patent Stud that both may be removed and replaced without loss of adjustment.

The quick trains of these Watches making 18,000 beats per hour, will especially recommend them for railway use.

All of the above Watches are warranted by special certificate to be made in the best manner from the best materials and to be good Time Keepers.

Phil'a. Watch Co's Watches,
Gents' Size, from.....120 to 140 Dollars
Ladies' " "100 to 120 "

These Watches have been pronounced by the best practical Watch-makers to be the best Watches yet produced in this country, and their construction for perfect time-keeping, as well as for durability, is equal of any Foreign Watches.

Our FULL Price List of Watches, with description of different grades, can be obtained on application. Although 14 kt. Gold wears full as well as 18 kt., we recommend the latter, as it is the best quality ever used. Richly Enameled and Engraved Cases cost from \$3 to \$12 extra.

Benedict's Time Watches,

Gents' Size, from.....30 to 210 Dollars
N.B.—In Benedict's Time Watches an effort is made to combine Durability with the greatest Accuracy of Time Keeping, without sacrificing elegance in general appearance, by the use of select material, and application of the most approved principles in their construction, and we confidently recommend them to those who believe the truest economy to be that outlay which secures the Greatest Ultimate Satisfaction.

Borel & Courvoisier Watches,
[Nickle Movements.]

Gents' Size, from.....30 to 300 Dollars
Ladies' " " " " "

We are Agents for these Celebrated Watches, which took the only Prize Medal at the London Exhibition in 1862, and the Grand Prize at the Paris Exposition in 1867.

Imported Watches,

Gents' Size, from.....10 to 465 Dollars
Ladies' " "35 to 200 "

Among these we have a Watch used for Timing Horses.

NOTICE.

Should a Watch sold by us prove unsatisfactory, we will exchange it as every Watch passing through our hands is warranted to us by the Manufacturers, and is accompanied by their certificate in connection with our own guaranty.

We send Watches by Express, with bill to collect on delivery, to all parts of the States and the Canadas—Express charges to be paid by the purchaser—privilege in all cases to open the package and examine the Watch before paying. Drafts or Post Office Orders are preferable, and sent when ordering a Watch save half the Express Charges.

Position for lifting.

Lifting.

MANN'S REACTIONARY LIFTER.

THE REACTIONARY LIFTER is an apparatus intended for the use of invalids and others desiring **Healthful Exercise**. It is designed to take the place of the various Weight-Lifting Machines used for similar purposes. By an exceedingly interesting and yet simple combination of levers, connecting a platform to side handles, or a cross-bar above the same, if the centre lift be preferred, a man may stand upon the platform and *lift himself*; thus presenting the wonderful and paradoxical appearance of a man

Lifting Himself by his Boot-Straps!!

By this arrangement the masses of iron usually employed for this purpose are rendered *entirely unnecessary*. The amount to be lifted, too, is accurately fixed by the easy adjustment of a slide at any weight from a few pounds to thousands. The only limit is the strength of the person lifting. These machines are so constructed that they can be used with or without a spring platform as may be preferred.

This remarkable invention possesses the advantages over any weight-lifting apparatus that has ever been invented, of being

1st. Much cheaper. 2d. More portable and convenient in handling.

3d. More compact and beautiful, and 4th. More easily adjusted.

While this Machine possesses all these valuable peculiarities, the effect of its use is the same as that of Weight-Lifting Machines. This is evident, not only from the nature of its construction, but it has also been confirmed by ample experiment.

To those who are not familiar with the *System of Health Lifting*, we would say that it is a mode of exercise that possesses the most remarkable advantages, both for business and professional men, and all persons of sedentary habits, and as an invaluable aid in the treatment of *nearly every form of disease*. It consists in the lifting of weights in such a manner as will call into simultaneous exercise

Every Muscle of the System,

yet each only in proportion to its relative strength. This—however great the exercise—*strains no portion*, while it directs the vital forces to the *cure and building up* of the affected parts. It can be usefully employed in every degree of health and strength, and is especially applicable in cases of any derangement of the vital organs. It has met with the approval, during the past few years, in New York, Boston and Chicago, of many of the first physicians in all branches of the profession.

A Manual containing minute directions for the management of the Lifter and mode of using it; presenting also a clear explanation of the theory and practice of this mode of exercise, will be furnished gratis with each machine, or sold separately at 25 cents.

Pamphlets containing a full description of this Apparatus, and testimonials of well-known citizens who have used it, furnished gratuitously on application personally or by mail.

These Machines are made wholly of iron, steel and gun-metal, in the most substantial and finished manner, and are good for a lifetime. The price is from \$80 to \$110, according to style of finish. This is only one-fourth to one-third the cost of weight-lifting machines.

All are invited to examine and test the Reactionary Lifter at the office of the Company.

Call on or address

One of the great inventions of the day is "MANN'S REACTIONARY LIFTER." * * It is worthy the careful attention and study of all who feel an interest in such machines.—*N. Y. Evening Mail*.

 FIRE AND BURGLAR-PROOF SAFES.

NIAGARA STEAM PUMP WORKS.

CHARLES B. HARDICK,

(First Premium at American Institute, 1867 & 1870, upon practical Tests.)

23 Adams St.,
(Old No. 9.)

Brooklyn, N. Y.

SOLE MANUFACTURER OF
HARDICK'S PATENT
Double-Acting Steam Pump and Fire Engine.

JORDAN'S
BROOKLYN STEAM CARPET CLEANING ESTABLISHMENT,

Baltic, corner Nevins Street,
BROOKLYN.

(ESTABLISHED IN 1860)

~~~~~  
**Great Improvements,**

**NEW FACTORY, NEW MACHINERY AND A NEW PATENT.**

**COMPETITION DEFIED.**

 Carpets called for and returned to any part of the city free of cartage.

**THOMAS JORDAN,**

**Proprietor.**

# CARTER'S COMBINED WRITING AND COPYING INK.

MANUFACTURERS AND PROPRIETORS:

**CARTER BROS. & CO.,**  
27 Milk Street, Boston.

**J. P. DINSMORE,**  
36 Dey Street, New York.

Ten years' constant use by many of the largest Banking institutions and Commercial Houses in this Country, has established the superiority of this Ink beyond question.

## A SILVER MEDAL

was awarded at the Mechanics' Fair, in New York; and it has received the **HIGHEST PREMIUM** over all others from Scientific Institutions in other cities.

### THE ADVANTAGES OF THIS OVER OTHER INKS ARE:

1st. Being equally good for Book-keeping, ordinary Writing or Copying, it does away entirely with the inconvenience of using two kinds of Ink.

2d. It flows from the pen as freely as any writing fluid.

3d. It gives a cleaner, better copy, with less spreading than the best "Copying Ink."

4th. It is permanent, and cannot be erased even with acids.

5th. It does not fade, but grows blacker with age.

6th. It cannot mould, and consequently there is no waste.

7th. It does not thicken by exposure to the air.

8th. It will stand freezing without injury, and may be reduced with water without precipitation.

9th. The color, when first used, is a beautiful dark green, but changes in a very short time to a **BRILLIANT JET BLACK**.

10th. It is cheaper than any other ink, because a dollar's worth will do more writing.

11th. It is admirably adapted to the most delicate writing, and always "makes its mark."

12th. It is warranted to Flow as **FREELY** as any Writing Fluid in use; to give as **PERFECT A COPY** as any Copying Ink, and **NOT** to **THICKEN** or **MOULD**.

**CAUTION.** CARTER'S COMBINED WRITING AND COPYING INK is put up in Glass Bottles, with a Red Label, and the name "CARTER'S INK" blown in the glass. To prevent swindlers from re-filling genuine bottles and selling it for CARTER'S we now put a Protection Label over the cork of the Quarts and Pints, which, if not broken, is a guarantee that the contents are genuine.

The utmost care is used in selecting the very best materials, for all departments of the manufacture; and the proprietors pledge themselves that no trouble or expense shall be spared to keep up the quality, and to make it a **PERFECT INK**.

If further evidence is wanted, we would suggest a **TRIAL**; and if not satisfactory, **THE MONEY WILL BE REFUNDED**.

**SOLD BY STATIONERS GENERALLY.**
